Crossroads for Climate Justice
Behind the Consumption Smokescreen – How can Sweden become a true role model in climate action?

Current emissions/atmospheric space
Past obligations and promises
Negotiation process
Past emissions/historical responsibility
Adaptation
Right to sustainable development

Climate justice/Equity

Finance and technology
Implications of ‘solutions’
Inequity within countries

Consumption (Import/export)

Acknowledge/curb emissions from consumption
Radical, domestic cuts

Build trust
Finance and technology

Pledge & review
Aggregate, binding, top-down

Bali issues/LCA
Kyoto Protocol
Durban platform
Equity and CBDR?

Bali issues/LCA
Clash of paradigms

Next 10 years...

Go first...
Substantial climate finance
Build trust
Build new alliances

How become a role model?

Question development model

Bridge-building
Talk with the South

What next?
